

**Qwiklabs Plan** 

2023/2024

# **Overview & Purpose**

Qwiklabs is an online learning platform that provides lab learning environments that help developers and IT professionals get hands-on experience working with leading cloud platforms and software.

Qwiklabs aims to empower learners with practical skills that can be immediately applied in their professional careers.

# **Objectives**

- 1. Enhance Learning Opportunities.
- 2. Enhance Skill Development.
- 3. Promote Practical Application.
- 4. Enhance Collaboration and Networking.

### **Policies**

All Members must Participate As a Group, The minimum for each group is between 8 to 12.

The Estimate Duration for the Paths Between 30 to 40 Hours By the end of Each Path, Each Group must do a Report and one thing from this

- 1. Workshop
- 2. Talks
- 3. Project

# Courses

#### From 14 Jan to 31 Jan 2024

| Name of Path                             | Name of Courses  | Estimate Duration<br>For Course | Estimate Duration<br>For Path |
|--|--|---------------------------------|-------------------------------|
|  | Google Cloud<br>Computing<br>Foundations:<br>Cloud Computing<br>Fundamentals     | 5 Hours                         |                               |
|  | Google Cloud<br>Computing<br>Foundations:<br>Infrastructure in<br>Google Cloud   | 6 Hours                         |                               |
| Google Cloud<br>Computing<br>Foundations | Google Cloud<br>Computing<br>Foundations:<br>Data, ML, and Al<br>in Google Cloud | 6 Hours                         | 15 Days, 2 Hour<br>per day    |
|  | Create and<br>Manage Cloud<br>Resources (Lab)                                    | 3 Hours 45<br>Minutes           |                               |
|  | Perform Foundational Infrastructure Tasks in Google Cloud (Lab)                  | 3 Hours                         |                               |
|  | Perform<br>Foundational<br>Data, ML, and Al<br>Tasks in Google<br>Cloud (Lab)    | 5 Hours                         |                               |
|  | Network Engineer<br>Learning Path  | 3 Hours                         |                               |
|  | Google Cloud   | 5 Hours                         |                               |

|                                   | Fundamentals:<br>Core<br>Infrastructure   |         |                            |

#### Projects

We have created this <u>repo</u> just for improving your Skills in any kind of programming. We are creating this <u>repo</u> So that many of you can add your files over here.

There are no guidelines or intersections for your project, you can do what you want.

\* If you Don't know how to use GitHub, This a course from <u>Udacity</u>.

Good Luck 🤎
